

OEXA 82-1453/1
ER 82-3258/1

7 JUN 1982

MEMORANDUM FOR: Executive Director

FROM:

Director, Office of External Affairs

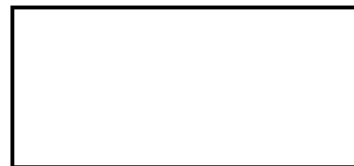

STAT

SUBJECT: Invitation from American Society of Industrial Security,
Atlanta, 14/15 September

1. Action Requested: Accept an invitation to address the American Society of Industrial Security in Atlanta on 14 or 15 September.

2. Background: You are invited to address this 2,500-member symposium on the threat of technology transfer. To date, the DCI and DDCI have chosen to speak out on this theme about once each quarter before selected audiences. The DDCI in particular has been careful to ensure that he was expressing his personal views, to avoid the impression that as DDCI he was suggesting CIA or U.S. Government imposition of controls on scientific research or development. If you wish to continue this program, this looks like a good opportunity and audience.

3. Recommendation: Authorize Public Affairs to accept for you and proceed with arrangements, after you are confirmed.
